Our New Patent Five-Slice Incandescent

WIRE CONE TOASTER

FOR GAS OR GASOLINE STOVES

Convex bottom—fits all stoves—
Grooved Edge catches the crumbs—
Open top toasts the fifth slice—
Or Heats Plate, Tea or Coffee Pot—
Toasts Five Slices in Two Minutes—
The wire cone throws the heat of a bed of coals—

Directions: Place toaster directly ever the flame so that the cone will heat evenly. When cone is red-hot place bread in wire holders, and one slice on top. It will surprise you the way it toasts. Only a trial is needed to prove its worth.

Holmes' Livery Rubber Tire Hacks for Funerals, Receptions and Calling **Phone 106**

TIN! TIN!! DOUBLE TIN!!!

Edges crimped and hammered in,
Soldered well and corners tight,
Work by Naekel is always right.
Perfection stamped on every piece,
Sheds the water just like grease;
Cheap material, shoddy work,
Round this shop they never lurk.
Our work business gets,
For our joints aways fit;
For the dollar you give us
You can never raise a fuss;
"Dollar for dollar," that's our plan;
Our work is done with a master hand.

The Giblin furnace, our delight,
It warms your house both day and night;
Saves the fuel and saves the labor,
Don't take our word; ask your neighbor.
Many years it has stood the test
Goes to show that it's the best.
Mr. Man, to see something good,
Just look at the Giblin under the hood,
And note its construction from base to the top.
And particular attention to the heavy fire pot.
We bid you good day with an invitation to call
On A. G. Naekel, The Tinner, who leads them all.
